# Incentives

The incentives landscape in South Africa consists of a network of sector specific and cross-cutting incentives that fall into three major types of funding instruments, namely cash grants, tax allowances and preferential infrastructure access. To support investors, the South African government has various national, provincial, municipal and organisational incentives available that generally complement each other towards fostering smooth investment landing and support.

Below are some of the incentives available in the Nelson Mandela Bay spanning across various sectors and entities:

| | |
|---|---|
| DTIC | Sector based, generally monetary or tax reduction. Ranging from infrastructure grants to MSME funding and Renewable energy tax reductions |
| Provincial / ECDC | Monetary based funding. Both sector based and business size. |
| Coega | Tax deductions, Reduced utility rates |
| NMBM Metro | Non-monetary & sector based. Mainly utility rebates. |
| SARS | Separate for Large Businesses and MSMEs. AEO's and tax reduction |

**New and existing investors can contact the Trade and Investment Desk for further information on investment incentives and the related application process**
